Standing Stones: Stonehenge, Carnac and the World of ...

The Carnac stones are an exceptionally dense collection of megalithic sites in Brittany in northwestern France, consisting of stone alignments, dolmens, tumuli and single menhirs. More than 3,000 prehistoric standing stones were hewn from local granite and erected by the pre-Celtic people of Brittany, and form the largest such collection in the world. Most of the stones are within the Breton village of Carnac, but some to the east are within La Trinité-sur-Mer. The stones were erected at ...

AIA Tours - From Stonehenge to Carnac: Megaliths ...

The Carnac Stones in France are the largest collection of standing stones in the world, but there is also no real explanation for their purpose. The Carnac Stones in France are unlike any other megalithic structures that you've seen or read about in Europe. Unlike England's famous Stonehenge, which consists of a ring of standing stones, the Carnac Stones are made up of 3,000 stones that are either standing in patterns of scattered randomly in this French countryside.

Carnac is famous as the site of more than 10,000 Neolithic standing stones, also known as menhirs. The stones were hewn from local rock and erected by the pre-Celtic people of Brittany. Local tradition claims that the reason they stand in such perfectly straight lines is that they are a Roman legion turned to stone by Pope Cornelius.
